

Green Council Meeting Minutes

Thursday, November 11, 2010

Upper School (rm 115)

Attendance: Annie Marcum, Deborah Melear, and Debbie Wheeler

A small but productive group!

Dee Dee – make announcements about ecofriendly holiday

- **Earth Week - planning**

- We've decided to show "Dirt." Definitely appropriate for Upper School but not sure about others. Deborah will preview for Lower School and we'll need to get someone from the Middle School to preview it for them.
- It's 80 minutes long. We'll have to figure out how to work times so we can see it all. Annie suggested at the US we switch F and Flex and maybe use part of our lunch time. She warned that we should ask Dr. Quintero if she would switch Junior out to lunch day to Thursday that week so they wouldn't be upset.
- Speaker about using more environmentally responsible lawn care treatments. Speak to US after film.
- Jim Embry – discuss Terra Madre – perhaps this could be done anytime. Doesn't even need to be during Earth Week. Annie discussed importance of variety of environmentally responsible activities year round!
- Education Celebration that week at LS
 - Trailer of activities? Look into booking the education trailer through the state.
 - Seedleaf (Ryan) – spring planting
 - Farmer to sell plants?

- **Miscellaneous**

- Give information about more environmentally-friendly ways to celebrate the holidays.
 - Gift buying
 - Gift wrapping
 - Food waste

- **Next Meeting Date: Thursday, January 20th, 2010 at 3:30 PM**
