

SAYRE SCHOOL

Rising Pre-Algebra Summer Math 2022-2023

DEAR RISING PRE-ALGEBRA PARENTS,

Once again, it's time for summer math! The summer math expectations for Sayre Middle School's rising Pre-Algebra students will be to complete an average of 30 minutes per week, or at least 5 hours, of summer math on Khan Academy OR complete a Summer Solutions workbook. Our goals for your students are:

- Retain math skills learned during the past school year
- Strengthen problem solving and critical thinking skills
- Foster an enriched interest in math
- Boost student confidence in math skills

Ordering Summer Solutions Grade 6:

- Your student will be completing 15 pages of their choice in the Summer Solutions book, which corresponds to the grade level they have just completed.
- Order your copy here: summersolutions.net/Standards-Based-Mathematics-6

Signing Up for Khan Academy:

1. Sign up at KhanAcademy.org (or log in if they already have an account.) Please use your first and last name as your user name.
2. If you don't already have an account, press "Create a new account". Enter your date of birth, then sign up using Google, your school email, or by creating a username.
3. Visit khanacademy.org/coaches (or click on the "Coaches" tab in your profile.) In the "add a coach" field, enter the class code: **UXUHCQ8B**
4. You're ready to begin! Click on "Home" to start learning / reviewing!

On the first days of school in August, your student's math teacher will be looking for mastery of topics and progress of topics, not just time logged or completion of time. It is typically the first grade of the year – obviously we are interested in time invested, growth, and mastery, not perfection. Please assist your student in setting up their account by **July 1, 2022**.

We are excited to work with your students next year and hope you have a wonderful summer. Let us know if you have any questions!

Sincerely,

Anna Cook
